Education

Indira Gandhi Delhi Technical University For Women , Delhi

Aug. 2025– May 2027

Master of Computer Applications

(CGPA-9.00)

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Artificial Intelligence
- Full Stack Development
- Operating Systems
- Database Management
- Software Engineering
- Computer Architecture

Experience

DigiDeity Company

Jan 2025 – July 2025

Full Stack Developer & Google Ads Intern

(Onsite) Fatehabad, Haryana

- Developed and deployed **50+ landing pages and websites** using CMS platforms and custom development with HTML, CSS, JavaScript, Node.js, and FastAPI.
- Built and maintained full-stack applications using React.js, Node.js, and FastAPI, including frontend UI/UX, backend services, server deployment, and **REST API** integration for seamless communication.
- Managed and optimized **30+ client campaigns** on Google Ads, improving performance and ROI.
- Implemented **SEO strategies and content development** to increase website traffic, search rankings, and user engagement.

Brain Masters

Feb 2024 – Dec 2024

Mentoring Students

(Onsite) Hisar, Haryana

- Delivered teaching and mentoring across **multiple institutes**, guiding students of diverse age groups and learning levels.
- Designed and implemented **structured lesson plans and personalized learning strategies** to improve student performance and engagement.
- Mentored students through continuous assessment, feedback, and support, fostering **academic growth and skill development**.

Projects

Tatva | Python(Fast API), React.js, AI integration, PostgreSQL

March-2026

- Developed an **AI-powered product verification system** enabling QR-based product authentication
- Built a full-stack application using **React.js (frontend)** and **FastAPI (Python backend)** with AI for seamless data flow between user interface, backend services, and product database.
- Designed and integrated **REST APIs** for real-time data processing, implementing secure authentication and **PostgreSQL** integration for scalable and reliable data storage.

VerbaFlow | Python, Tkinter

November-2025

- Developed a Python-based desktop application using **Tkinter** and **ttkbootstrap** for real-time multilingual translation and interactive language learning.
- Integrated APIs for **real-time translation and dictionary lookup**.
- Implemented **text-to-speech functionality** using gTTS and pyttsx3
- Optimized performance using **multithreading for smooth UI experience**

Technical Skills

Languages: Python, Java, C, HTML/CSS, JavaScript, SQL

Developer Tools/Frameworks: VS Code, React.js, Node.js, Express.js, FastAPI

Technologies : Git, GitHub, WordPress, Power BI, Google Ads, Advanced Excel

Databases: MySQL , PostgreSQL, MongoDB

Concepts: REST APIs, OOP, Data Structures, DBMS, NLP

Leadership / Extracurricular

- **State-level public speaker** with multiple awards, demonstrating strong communication skills.
- Awarded **Most Innovative Intern** at DigiDeity for delivering creative, impactful solutions during internship tenure.
- Achieved **Best Actress Award** in Theater and secured **University Rank 1** in Bachelor's program, reflecting excellence in both extracurricular and academic performance.
